

P(*arty*)Set

Jessica Andersen, Carolyn Holz, Nick Mohr, and
Hyungie Sung

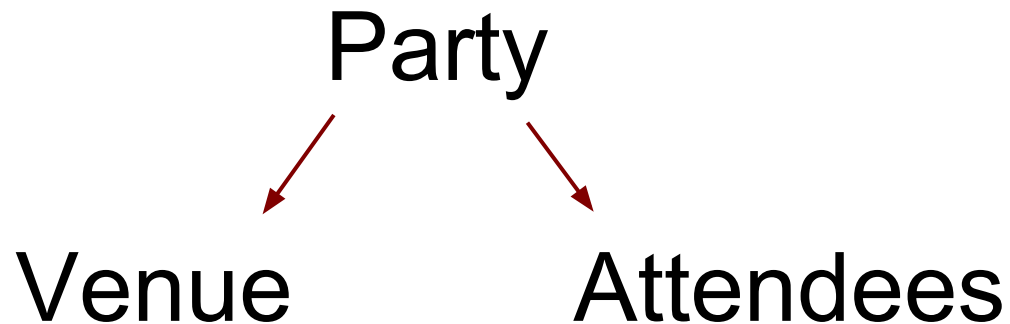

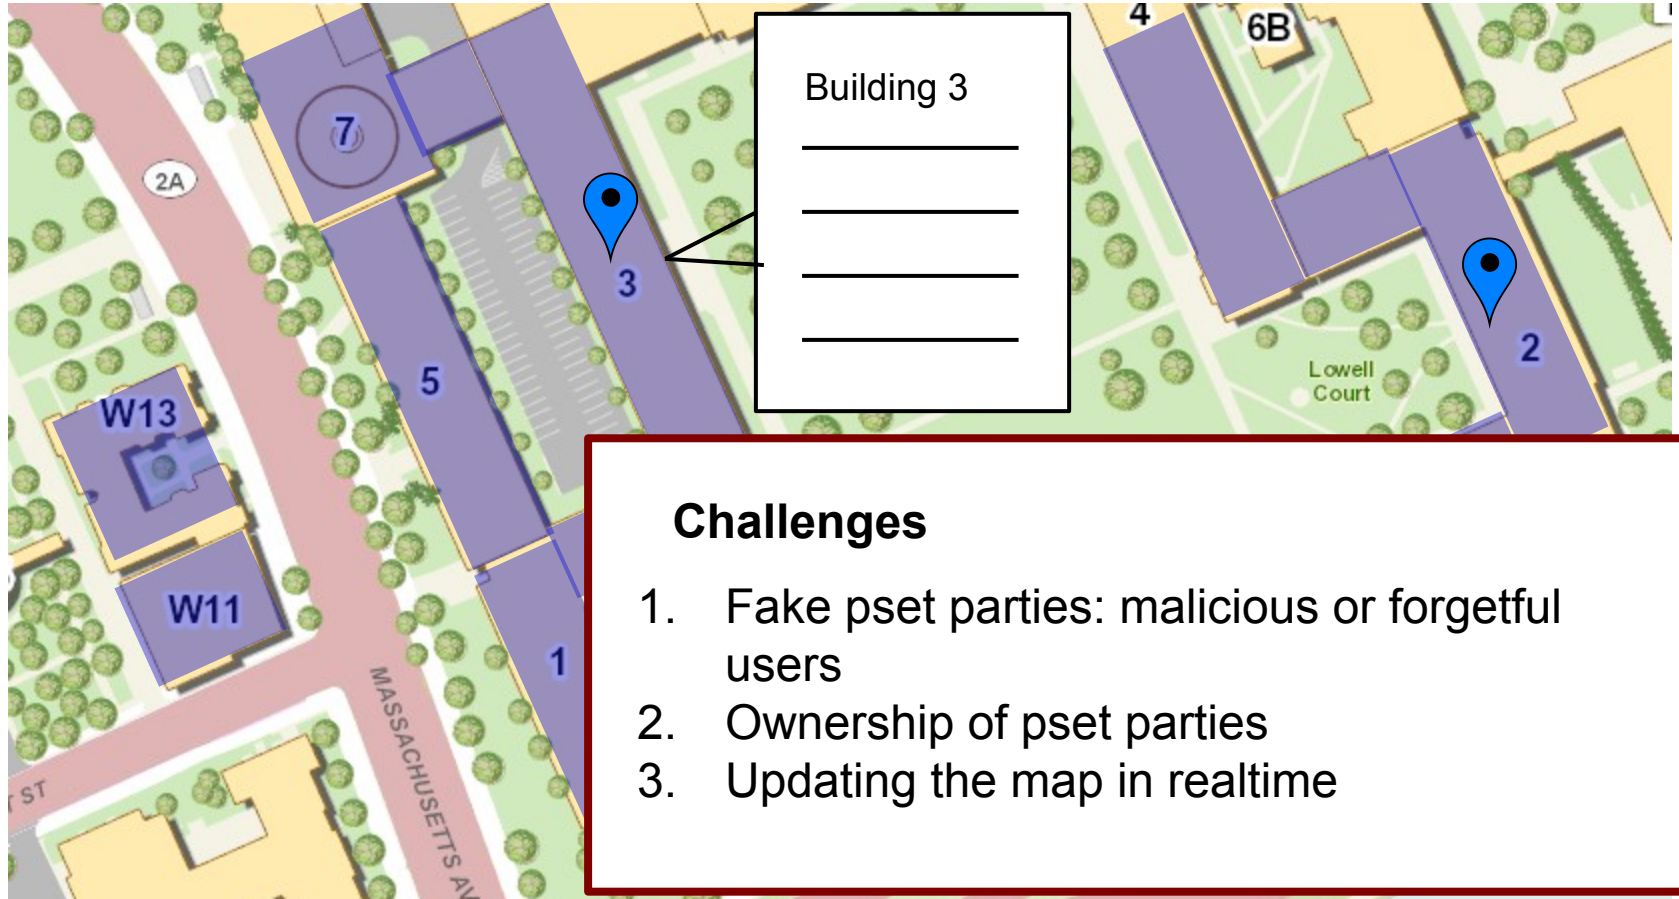

How?
When?
Where?

Purposes

1. Connect people in the same MIT classes to pset together
2. Help people physically find each other

Concepts

Risks

Extraneous, forgotten parties on the map

You set timeout when you make the party

Venue seems like most important thing

A way to filter by class

Concurrency on the map

Initially no live updating - a refresh button

Map API too bulky or missing what we need

Make our own map
